about ZINK or how to order your
ZINK-enabled product

Polaroid PoGo - short for Polaroid-on-the-go - is a pocket-sized, ink-free digital photo printer that produces full-color photos wirelessly from Bluetooth-enabled cell phones and via PictBridge from digital cameras.

The Polaroid PoGo uses the revolutionary ZINK Zero Ink Zero Hassles™ Printing Technology from ZINK Imaging to produce borderless, full-color, ink-free, 2-inch by 3-inch prints in less than 60 seconds.
